Tutoring Experience

Over the last 3 years, I've accumulated more than 1,000 hours of one-on-one tutoring, focusing primarily on IB Economics HL & SL, A-Level Economics, and IGCSE Business Studies. I've also supported students in preparing for their university entrance exams and foundation courses, ensuring they are well-prepared for the academic challenges ahead.

I have worked with students at various academic levels, from high school to university. My goal is to simplify complex economics theories and help students apply these concepts to real-world situations. I believe that mastering economics is about understanding the practical application of principles, not just memorisation.

I've helped many students improve their grades, particularly in IB Economics, where I guide them through internal assessments, extended essays, and exam preparations. My international background has also allowed me to work with a diverse range of students, providing tailored tutoring that meets each student's specific needs.
